## Overview

The Champlain Local Health Integration Network's (LHIN) *Accessibility for Ontarians with Disabilities Act, 2005* (AODA) Multi-Year Accessibility Plan outlines the organization's vision that all patients, employees, and members of the public are provided a barrier-free environment that supports the dignity of each individual.

This will be reflected throughout the Champlain LHIN by:

- *People with disabilities being able to enter the Champlain LHIN premises and reach their destinations without encountering barriers;*
- *People with disabilities receiving the services they require without encountering barriers;*
- *People with disabilities working without encountering barriers;*
- *Accessibility being incorporated into the Champlain LHIN's policies and practices; and*
- *Accessibility being accepted as everyone's responsibility.*

This accessibility plan outlines measures that the Champlain LHIN will take to identify, remove and prevent barriers to people with disabilities who work at the Champlain LHIN or use Champlain LHIN services. It will also detail our strategy to ensure compliance with accessibility legislation.

The Champlain LHIN will ensure that this plan is available to the public.

## Description of the Champlain LHIN

The Champlain Local Health Integration Network (LHIN) is responsible for planning, funding and integrating local health services and for coordinating and delivering home and community care services.

The Champlain LHIN's mandate is to ensure health services are well-organized, appropriately funded, and meet the health needs of the 1.3 million residents who call this region home. Its mandate is to work with and fund roughly 120 health service providers that offer about 240 health programs in hospitals, home and community care, mental health and addiction services, community health centres, and long-term care homes.

## Statement of Organizational Commitment

The Champlain LHIN is supportive of the *Accessibility for Ontarians with Disabilities Act, 2005* (AODA) and its objective of achieving accessibility for Ontarians with disabilities with respect to goods, services, facilities, accommodation, employment, buildings, structures and premises on or before January 1, 2025. As such, we are committed to identifying, removing and preventing barriers that patients, employees, and members of the public may face when interacting with the Champlain LHIN.

## Purpose

The purpose of the Multi-Year Accessibility Plan is to outline the Champlain LHIN's strategy to identify, remove and prevent barriers that patients, employees, and members of the public may face when interacting with the Champlain LHIN. This plan will also address the Champlain LHIN's strategy to meet all requirements under the *Accessibility for Ontarians with Disabilities Act (AODA)*.

## Definitions

For the purpose of this document a “**barrier**” refers to anything that prevents a person with a disability from fully participating in all aspects of society because of his or her disability.

A “**disability**” refers to any degree of physical disability, infirmity, malformation or disfigurement that is caused by bodily injury, birth defect, or illness and, without limiting the generality of the foregoing, includes:

- *diabetes mellitus, epilepsy, a brain injury, any degree of paralysis, amputation, lack of physical co-ordination, blindness or visual impediment, deafness or hearing impediment, muteness or speech impediment, or physical reliance on guide dog or other animal or on a wheelchair or other remedial appliance or device;*
- *a condition of mental impairment or a developmental disability;*
- *a learning disability, or a dysfunction in one or more of the processes involved in understanding or using symbols or spoken language;*
- *a mental disorder; or*
- *an injury or disability for which benefits were claimed or received under the insurance plan established under the Workplace Safety and Insurance Act, 1997.*

## Types of Barriers

- **Architectural:** Any physical factor that makes accessibility difficult for an individual. Examples include narrow doorways or hallways, poor lighting for visually impaired individuals, washroom facilities that are not physically accessible for all.
- **Environmental:** An item or characteristic of the setting that hinders service delivery by impacting the comfort level of the client, personnel, or stakeholders. Examples can include noise, lighting, scents and temperature.
- **Attitudes:** Ways of thinking or feeling by individuals that could result in behaviour that hinders positive interactions and possibly impacts service delivery. Examples can include the language and terminology the organization uses in its literature or when communicating with persons with disabilities, how disabilities are treated and viewed by the organization, consumers and the community. Other examples can include a lack of acceptance or inclusion, gender differences, cultural differences.
- **Financial:** Insufficient financial resources to support business and/or service delivery at an organizational level. Examples can include insufficient funding, inability to pay competitive wages/salaries to retain personnel.
- **Employment:** Barriers to recruiting and retaining qualified personnel. Examples can include employment practices, reputation of the organization, insufficient training or equipment.
- **Communication:** Barriers that may impede how staff, persons served, and other stakeholders communicate in order to receive services or conduct the business of the organization. Examples could include language, terminology, technological formatting, and the ability to communicate with persons who have visual or hearing deficits.
- **Transportation:** Limitations in a person's ability to physically access the organization. Examples could include no available public transportation to get to the organization or service, lack of knowledge or information on transportation support services among persons served.
- **Community Integration:** Factors affecting a person's ability to access their community. An example could include lack of knowledge of available services and supports in the community by persons served.
- **Any Other Barrier:** Any other barriers that impact accessibility for the persons served, employees or other stakeholders. Examples can include upkeep of previous repairs or changes, issues raised by evolving technology.

## Methodology for Identification of Barriers

The Champlain LHIN is committed to developing policies that respect and promote the dignity and independence of persons with disabilities. Services and operations are designed to promote and enhance the quality of life for persons served, support non-discriminatory employment practices, meet all legal and regulatory requirements, and meet the expectations of all of our stakeholders in the area of accessibility. Barriers are identified using multiple mechanisms:

- **Feedback Process:** Compliments, suggestions and complaints from our patients, family members, caregivers, and members of the public may be received in person, by telephone, in writing, electronically, or otherwise. The feedback mechanism is posted on the Champlain LHIN website.
- **Health and Safety Concern Reporting:** Reported health and safety concerns are tracked and addressed by managers. There are multiple policies on Occupational Health and Safety that demonstrate the Champlain LHIN's commitment to workplace safety and that outline the roles of the Joint Occupational Health & Safety Committee, managers and employees in maintaining and contributing to a safe work environment.

Regular inspections serve as a vehicle to identify actual and potential accessibility barriers. Accessibility barriers are documented and reported to the Director, Human Resources and/or the onsite manager.

- **Employee Input:** Staff are encouraged to report barriers that they have identified for themselves or others through the SupportWorks software ticket system.
- **AODA Legislation:** Mandatory requirements of the legislation set targets for accessibility initiatives and changes in process.

## Accessibility Compliance Plan

Customer Service Standard Requirement			
Champlain LHIN is committed to excellence in serving all customers including people with disabilities.			
Accessibility Requirement	Due Date	Lead	Status
<p>Accessible Customer Service Policy and Procedures: Develop, implement and maintain policies and procedures on providing goods and services to persons with disabilities.
